Science  
Gelsenkirchen**

# FISHA Project

- **European Information Sharing and Alert System (EISAS)**
- Starting point: **EISAS Feasibility Study (ENISA, 2007)**
  
- **EC co-funded project**
- **February 2009 - January 2011**
  
- Under the Programme for „**Prevention, Preparedness and Consequence Management of Terrorism and other Security Related Risks**”

# FISHA: Goal

- **Mission:**  
Raising the information level and the awareness of IT security issues
- **Target Groups:**  
Citizens and SMEs
- **Types of Information:**  
Alerts, advisories, best practices, awareness information
- **Appropriate Format:**  
Timely, trustworthy and tailored  
(subject of interest, less technical, in native languages)
- **Effective distribution of information:**  
Multiple channels, integration of related initiatives in EU

# FISHA „Vision“

- The **network**
- which acts as a **meta-information broker**
- for *alerts, advisories, best practices, awareness* information
- in **Europe**
